

Information System Activity Review

Complete a routine review of your ChiroTouch system audit logs at least once during each reporting period. See instructions below.

Date Reviewed	Reviewer	Findings	Action Required

Instructions:

1. Open System Auditing.
2. Next to "Actions performed between," select any date range within reporting period. You must audit at least one full business day, so your start and end date can be the same.
3. Click View.
4. Review log for security risks.
